Summary

In the 3 years of my service in the software industry I got an opportunity to work in E-Commerce domain & Insurance domain. Strong Object Oriented Programming design principles with good MVC Model and Plug-in architectural skills. Good understanding of Agile Software Development Model.

Excellent verbal and written communication skills with quick troubleshooting and analytical abilities.

Work Experience

Accenture Solutions Pvt Ltd as Application Development Analyst -Advance Java Dec 2016 to Aug 2017

1. Project: Insurance Project from Scratch

S/W Platform: Spring, JSF

Synopsis: The application was to be built from scratch. I was given the task of building the JSF pages (presentation logic) initially. Later I was also involved in creating classes and business logic in Spring MVC as per the client requirement. This project was to be built on complete MVC Architecture. I was involved for very less duration on this project (7 months). I left the project in between to pursue UPSC Civil Services Exam.

Cybage Software Pvt. Ltd. as Software Engineer

Mar 2014 to Sep 2016

Project : Digital River [demo]
S/W Platform: Spring, JDO, JSP

Synopsis: Digital River is the largest e-commerce company in the world. It provides global ecommerce, payments and marketing services. It offers the most powerful global ecommerce solutions for selling digital and physical products across global online markets. The application is maintained by several onsite and offshore teams that work with the Business Analysts and Business Users to continually enhance and enrich shopper experience. This project is built on complete MVC Architecture.

Responsibilities:

Analyzed and understood the architecture of Global Commerce Application.

Designed Control-M (basically a shell script file, which calls a JobManager Java class) which was scheduled to run to perform a particular Job.

Designed/Updated Macros that are being used in the notification e-mail.

Identify and Resolved the Bugs in the global commerce application. Maintenance of existing code and development of new features.
