# **Projects**

Project Title: Design of an IoT Based Autonomous Vehicle

Client: PERI Institute of Technology

Nature of Employment:

Duration: Dec 2018 - Mar 2019

Onsite / Offsite: Offsite

Team Size: 4

*Project Details*: A Web controlled and partially autonomous vehicle system is presented in this paper to highlight the idea to develop a remote controlled car which can be driven from anywhere using internet over a secured server

### Affirmative Action

### Work Authorization

Physically Challenged: No Job Type: Permanent

Employment Status: Full time
