Result-oriented Professional with over 3 years of experience in Software Development, C++,OOPS, Application Programming, Requirement Gathering, Technical Architecture, System Analysis, Client Management, Javascript, MySQL, SQL Server, C++, C#

Work Experience

Tata Consultancy Service as Software Engineer

Mar 2018 to Till Date

Customer Connect - BMO

Technology Use: C#, C++, ReST, NUnit.

Description: Customer Connect is user facing application. This is based on client specific framework (RCF). Aim of customer connect is to perform basic calculations at the edge of

the system and send it to mid tire.

Responsibility:

C++ module implementation with design patterns for particular project.

Implementation of ReST Service in C#.

CR implementation and its unit testing with NUnit.

Time estimation and implementation of new user stories.

Bug fixing, code quality report generations.

* Channel Service Grid - BMO

Technology Use: C# Web API.

Description: It is one sub system of BMO which is used to channelized data from different mid-tire systems to various UI Applications (Desktop, Web, Mobile). It Gives single contact

point to all UI applications.

Responsibility:

Implementation of small API which is required for Customer Connect.

Bug fixing
