Work Experience

ADP Pvt Ltd as Senior Member Technical

Apr 2016 to Till Date

Designing/Developing enterprise solutions by analyzing functional, technical requirements and current system. Working with product management and engaged customer service representatives to understand requirements and gather feedback on solutions.

Performing analysis, design, verification, demonstration and maintenance of products in a process-driven environment. Liaising with stakeholders during problem diagnoses, requirements gathering, detailed level design, development, system test and production implementation to ensure that optimal resolutions are achieved.

Contributing to code reviews, assisting junior programmers, participating/conducting design discussions and involving in outages.

Highlights:

Designed and Developed a system to update large data by mentoring junior developers, which resulted in reducing client calls about 40 percent and received award for the same.

Redesigned a W-2 Correction app which resulted in improving the system's performance by 30 percent and received award for the same.

Redesigned a tool to generate user report which improved the performance by more than 35 percent and recognized with

an award.

Developed a tool to upload instruction pages to system with pay/tax statements which resulted in saving time by 4 months per annum.

Transformed the whole build and deployment system from BladeLogic to Ansible which reduced the whole cost and received award.

Enhanced security & usability by replacing FTP usage with MFT to transfer/track the files by integrating with different teams & received award for the same.

Implemented a system to download the pay statements/pay adjustments in bulk as a result client are very happy.

Education

UG: B.Tech/B.E. (Computers) from International Institute of Information Technology (IIIT), Idupulapaya in 2015
