Work Experience

Larsen & Toubro Infotech as Software Engineer -Dot Net

Jan 2018 to Till Date

Rubicon Development Unit is a leading insurance company in Denmark and other European countries. The product is a Windows Application which is used by the workers of the insurance company to provide/maintain the policies of the people of Denmark. I worked on developing and analyzing the user stories and coming up with apt solutions for the client and business.

Worked closely with highly skilled developers, in tight knit Agile project teams, with a sharp focus on creating shippable software every 4 weeks.

Attending Daily Standup, Sprint Planning, Retro, Backlog Refinement and Demo meetings.

Involved in the development of PAS system for the leading Life and Pension provider, Denmark.

Developed new features in windows application and web services in Microsoft Visual Studio .NetIDE using C#.Net and SQL Server.

Expert in debugging an application using the debugging tools provided by the Visual Studio.NetIDE and Resharper.

Doing RnD for the scope of automation where possible.

Deleviring the package along with unit testing followed by integration and gate test.

End to End development of the product, based on TDD.

Good Knowledge of Software Development and SDLC.

Providing proper Knowledge Transfer to the whole team after the delivery of the features.

Received appreciation directly from client for the complex features delivery on time and bug free.

Education

UG: BCA (Computers) from Shreemati Nathibai Damodar Thackersey Women's University (SNDTWU) in 2014
