Result-oriented Professional with over 2 years of experience in Software Development, Application Programming, Application Development, Requirement Gathering, Business Analysis, User Stories, HTML, Javascript, CSS, Rest, OOP, Postgresql, SQL Database, Web Technologies, JSP Servlets, Front End

## **Work Experience**

# **Tata Consultancy Services** as System Engineer Apr 2018 to Till Date

Develope single page applications using Angular with versions 6 and 7. Used core features like Routing, Services ( Dependency Injection ), Guard etc. Involve in the development of Admin Portal Applications with all CRUD operations linked to the back end for multiple client organizations.

Develop responsive applications for different media screens using bootstrap classes and media queries. Develope REST APIs and Micro Services in .net core framework, which focused on generic scripts, loosely coupled features and minimizing development work. Work with postgreSQL database with proper linking to the Micro Services and integrating the response into front end application.

#### **Education**

UG: B.Tech/B.E. (Computers) from Poornima College of Engineering, Jaipur, Rajasthan in 2017
