### Summary

.NET Power Dev with 3+ years of experience in all stages of development cycle from user interface, data handling to testing. I'm particularly proficient towards third-party Integrations such as Payment Gateway, Authentication, Business Intelligence and Information Cross-Sharing/Wrangling

To be able to apply my expertise to improve society and further business goals. To coordinate, imbibe, create and explore new solutions and possibilities.

## **Work Experience**

#### CBL DATA SCIENCE as Software Developer

Oct 2019 to Till Date

Contributed to startup company's swift evolution from selling individual niche products to offering a full solutions suite marketed to the global financial services industry.

- \* Designed and Implemented a loginless payment solution for some of the company's products. This translated to a surge of new customers due to ease of use and more inclination to testdrive our products.
- \* I was responsible for webscraping several third-party resources ethically and aggregate them, one time or periodically. JS and Windows applications were made depending on complexity and automation.
- \* Worked on developing plugins on Chrome, Tally, Zoho marketplaces for customers to make use of company solutions.
- \* Implemented an auto-invoicing solution to generate invoices after successful orders. Additionally, mechanism to auto reverse transactions in case of failures. This saved space for operations and accounting departments.
- \* Integrated third party solutions like Zoho CRM/Invoices, Tally, to auto-insert various data for operations, analytics and research.
- \* Contributed to periodic generation of url lists for new dynamic pages (3 million+) on the website to submit to Google, for SEO purposes.

## Telebu Communications as Web Developer

Oct 2017 to Sep 2019

Worked on an audio conferencing, telephony product with web-side call management solution. I was responsible for feature implementations and existing maintenance on web frontend side and data design and integrity on the backend for call functionalities and features.

\* Overhauled the way archived audio transport worked. Converted into streamable audio, now providing consistent quality

and security.

- \* Additionally, I received Product Ownership expertise and training as Dy Product Owner and handled customer and interdepartmental interactions extensively for one year.
- \* Worked on company administration portal, financial payments transactions portal and attendance portal. Responsible for feature implementations and general maintenance of the solutions.
- \* Developed a dynamic reusable plugin to display output for various combination of input data for analytics and graphs, for use by sales and marketing teams. Added trackers and SMS/Email reminders(notifications) services for Sales executives, Employees, Clients based on the portal.
