1/22/2021 https://freesearch.naukri.com/preview/printResume?uname=a886d0d7a2591d13caf76d74c61dde9c0b0e0d071c410f150513490a58...

Worked on migration of objects from 11i to R12.2.4 using Kintana tool.

Worked on Reports and Forms customizations.

Worked on Order management and Inventory modules.

Project Name ABT Services Replication Team

Role Developer Client CISCO Duration 12 Months Project Description:

Cisco Systems, Inc. (known as Cisco) is an American multinational technology conglomerate headquartered in San José, California, that develops, manufactures, and sells networking hardware, telecommunications equipment, and other high-technology services and products

Project fully integrated with Inventory and OM modules, PLSQL Coding AOL Components and reports.

SLA Accounting is an added new feature in R12, hence Cisco plans to move data from 11i to R12 since it wants to change Standard Accounting Model to Sub ledger Accounting Model (SLA).

SLA is the centralized rule based engine in R12 that generates accounting for all the Sub ledger transactions.

In order to achieve this, Replication Team had come into existence where we replicate different types of transactions from 11i to R12 through standard API Interfaces.

Objects Developed:

Worked on Inventory and Order Management modules for 11i to R12 upgrade project.

Was involved in Development, Unit Testing, Migration, Go live and Normalization support activities.

Developed technical design documents as per the requirement.

Developed AOL components as per the requirement.

Implemented dynamic enabling of parameters in a concurrent program.

Performed Unit Testing using BEAT framework with the help of sql developer.

Was recognized and awarded for excellence in work by Heather Yurko (Cisco ISSIP, Vice President) Got Infosys Galaxy award for the excellence in work.

Project Name PTF ERP Integration Team Role Developer Client CISCO Duration 4 Months

Project Description:

Cisco Systems, Inc. (known as Cisco) is an American multinational technology conglomerate headquartered in San José, California, that develops, manufactures, and sells networking hardware, telecommunications equipment, and other high-technology services and products.
