Work Experience

Bench Tech software Pvt Ltd as Front End Developer

Aug 2016 to Till Date

Project 1: Smart Retail for the internal Queue-Management App

Duration: June 2019 to till date Roles and Responsibilities:

I am a Front-End Developer for "Smart Retail" and working on Front end functionalities and integrating the data from backend to Front end using Angular Framework.

Our Queue-Management enables apt management of the store-queues with the help of AI, Analytical dashboarding and Mobile-App (Android and iOS). This solution seamlessly evaluates the instore IP-Camera video feed and uses AI to give actionable insights to the Store-Operations-Managers on the active-queues at the checking counters, over their Android/iOS app.

I am handling all Front-End activities.

Software Methodology: Agile.

Environment/ Technologies Used: Angular, HTML5, CSS3, Java script

Education

UG: B.Tech/B.E. (Computers) from Dr M G R Engineering College, Maduravoyal in 2016
