Work Experience

TEKsystems as Java Developer

Dec 2019 to Till Date

I am interested in building software that is fast, easy to read, understand, and maintain. I have good knowledge of Java and and I came from a strong mathematical background which made me a great thinker and creative problem solver. I love spending time on fixing little details. I enjoy being asked to work on things that requires learning new technologies. My skills set:

Proficient in Java, OOP, Dynamic Programming.

Experience working with Spring.

Experience with Web Programming Languages (HTML, CSS).

Good understanding of different Data Structure.

Good understanding of time and space complexity, Big 0 Notation.

Extensive experience working with Database, SQL, DB2, writing stored procedures, tables, views.

Experience working with liquibase for tracking, managing and applying database schema changes.

Experience in writing tests with Junit, and following TDD technique.

Extensive experience with continuous integration using Jenkins.

Hands on experience in working with Git with a large

team. Expert knowledge of Agile methodology.

Experienced in working with Intellij IDE, Microsoft Visual Studio, Eclipse.

Experience in problem-solving, and creative thinking.

L&T Technology Services as Software Developer

Mar 2017 to Dec 2019

Working in Agile environment to deliver my work with proficiency, Working on developing restful web services using java spring boot technology also working on Developing UI part of web applications.

Education

UG: B.Tech/B.E. (Computer Science) from RGTU Bhopal in 2016
