DARSHAN RAGHUNATHAN (1) Featured

Developer seeking roles in Application Development, Database Development, IT Project Management, Change Management, Root Cause Analysis, Quality Assurance, Requirement Gathering, Debugging, Troubleshooting, Coding, Oracle AWS, SQL, UNIX, Python, Toad

Current Designation: Database Developer - Software

Development

Current Company: Epsilon

Current Location: Bengaluru / Bangalore

Pref. Location: Bengaluru / Bangalore, Chennai, Hyderabad Functional Area: IT Software - Application Programming /

Maintenance

Role: Software Developer

Industry: IT-Software/Software Services

Marital Status: Single/unmarried

Key Skills: SoftwarDeveloper, Application Development, Database Development, IT Project Management, Change

Management, Root Cause Analysis, Quality Assurance, Requirement

Gathering, Debugging, Troubleshooting, Coding, Cloud, Oracle, AWS, ETL, SQL, UNIX, Python, Toad, PLSQL, Tuning

Verified: Phone Number | Email - id

Last Active: 22-Jan-21 Last Modified: 22-Jan-21

Summary

Certified AWS Solution Architect offering over 3 years of experience in Application Development, Design & Implementation (Oracle/ AWS) and Data Management with excellence in managing large & complex projects and conducting Impact Analysis and Root Cause Analysis

Exposure in the areas of Data Modeling, EDW, Data Mart, Master Data Management, Metadata Management, Data Quality, Data Governance, Data Integration (ETL) and Data Security

Capable to develop and deploy applications on the AWS platform

Excellence in all the phases of Software Development Life Cycle (SDLC) entailing requirement analysis, design, development, implementation, delivery and troubleshooting

Expertise in requirement gathering & analysis, documentation (functional specifications, technical design), database designing, SQL server databases and testing

Led & managed implementations in real-time environment; interfaced with stakeholders during implementation

Work Experience

Epsilon as Database Developer - Software Development Aug 2016 to Till Date

Key Result Areas:

Understanding process requirements and providing use cases for business, functional & technical requirements;

translating business logic into technical requirements, coding and implementation

Writing SQL queries and presenting data mart for data analytics

Facilitating data management and delivery in accordance with policies

Working with ETL tools and providing data to Campaign Management Tools

Processing flat files using Unix Tools; working with SQL loaders to load huge volume of data within minimal time Developing application solutions by studying information needs, systems flow, conferring with users, data usage and work

Documenting application solutions through flowcharts, layouts, diagrams, charts, code comments and clear code

Managing various technical aspects like coding of modules using the given design specifications, debugging and fixing the

Managing various technical aspects like coding of modules using the given design specifications, debugging and fixing the defects as well as analyzing its root cause

Analyzing formal test results in order to discover and report any defects, bugs, errors, configuration issues, and interoperability flaws; suggesting recommendations for improvement of applications to Programmers

Ensuring timely and accurate test communication with Development Leads, Project Manager and Senior Management

throughout the project

Resolving all types of configurational issues, integration & interface issues between various applications with focus on

Resolving all types of configurational issues, integration & interface issues between various applications with focus on optimizing application performance; developing /implementing appropriate mitigation and contingency plans

Highlights

Worked on performance optimization; developed query/scripts as a step for process improvement Implemented and automated various processes which helped the client with increased accuracy of their reporting

Education

UG: B.Tech/B.E. (Electronics/Telecommunication) from BMS College of Engineering Bangalore in 2016

Other Qualifications/Certifications/Programs:

Certified AWS Solution Architect

IT Skills

Skill Name	Version Last Used Experience
Toad, Oracle SQL Developer	
Oracle SQL, AWS, PL/SQL, UNIX	
Git, Tortoise SVN	
Actuate reporting Tool	
Oracle 12c, Oracle 11g, Oracle 9i	
Cron Tab	
UNIX, Microsoft Windows	
MS OFFICE (Word, Excel, Powerpoint)
