Last Active: 22-Jan-21 Last Modified: 22-Jan-21

Summary

Total 4 years of IT experience with 3.5 years of experience in Robotics Process Automation (RPA) tool UiPath. Being a UiPath Advanced Certified RPA Developer, I have worked on multiple automations to increase the efficiency and accuracy level using UiPath for automating business process workflows. Major skills involve doing feasibility study, creating design documents, developing, UAT testing and deployment of RPA (Robotics Process Automation) solutions using UiPath to meet both internal and external requirements.

Work Experience

Capgemini as Associate Consultant -Automation May 2019 to Till Date

Environment: Robotics Process Automation- UiPath

Projects:

- 1) BMC Remedy Ticketing Tool Ticket Monitoring/Updating
- 2) Control-M Application Alerts Monitoring
- 3) Service Now Ticket Monitoring / Updating, Report Generation
- 4) RSA Portal Onboarding/Offboarding
- 5) Carnival PCL Onboarding

Roles and Responsibilities

Worked as SME to do the extensive feasibility study of a process using UiPath solution and finalize the scope for development.

Create PDD (Process Definition Document) and developed separate SDD (Solution

Design Documents)

Develop configurable Agile UiPath BOTs using RE Framework.

Participated with test teams during the Product test and UAT phases to fix assigned bugs.

Configured the Bots and deploying processes and also scheduled the jobs in UiPath Orchestrator.

Configuring new processes and activities using core workflow principles that are efficient, well-structured and manageable. Scheduled UiPath Bots using Task Scheduler.

Handling of Image based, and Text automation in Virtual Environments, for interacting with the application.

Interacted with different mail services such as POP3, OUTLOOK and IMAP to get the mail

Lead the Teams Both On-shore and Off-shore Teams to ensure the deliverables are smoothly achieved on time.

Maintaining several RPA bots as batch processes on daily basis and ensure quality and high performance to the internal and vendor applications of the organization.

Responsible for project documentation to ensure quality and consistency.

Provide Upskilling Sessions for new joinees.

Aon Hewitt as Analyst-Operations

Jun 2017 to Apr 2019

Environment: Robotics Process Automation- UiPath

Projects:

1) Automatic Report Generation

2) Automatic Letter Creation Post Data Extraction from Multiple Webpages

Roles and Responsibilities

Automate processes using RPA technology (UiPath) and working closely with process experts test and implement inscope processes.

Conduct UAT testing & drive end-to-end implementation.

Able to support and drive change management of existing processes (UiPath) as per new requirements using a structured change control process.

Responsible for designing and setting up assessments for employee selection, employee development, pre-hiring, post hiring based on client requirements.

Responsible for managing and reporting of High Potentials Identification & Development, Leadership

Assessment and Assessment for Selection.

Responsible for managing the Online and Virtual Development Centers being conducted for middle management for our clients.

Handled various high complexity projects across their entire life cycles. Main responsibilities include planning deliverables and timelines, maintaining effective communication with all stakeholders, managing work allocation to resources to ensure both timeliness and quality, and tracking and reporting team utilization

Responsible for documentation of best practices to ensure quality and consistency, and organizing training sessions for Trainees and Junior Analysts

Handled various high complexity projects across their entire life cycles.

Work closely with management to prioritize business & information needs.

Achievements

Received AON Plaudit (Monthly) Award twice for efficient Client Deliverables in CrunchTimelines.

Received AON Rising Star Award for High Performance in first 3 months.

Awarded the "Delivering Distinctive Client Value - August'18" achievement in Aon

DIGISPICE as Trainee

Jul 2016 to Jan 2017

Designing an interactive User Interface using HTML, PHP, Javascript for Web Pages. Creating and maintain efficient and normalized SQL Database. Develop basic Java API?s for Mobile Applications.

Education

UG: BCA (Computers) from HNB Garhwal University, Srinagar in 2011

PG: MCA (Computers) from graphic era hill university, dehradun in 2016
