

Software Engineer seeking roles in Application Development, Application Maintenance, Application Support, Requirement Gathering, Requirement Analysis, Debugging, Bug Fixing, Coding, Testing, Client Management, C#, ASp.net MVC, Web API, JavaScript, iQuery, CSS, HTML

Current Designation: Software Engineer Total Experience: 4 Year(s) 0 Month(s)

Current Company: R Systems International Notice Period: 1 Month

Current Location: Noida Highest Degree: B.Tech/B.E. [Computers]

Pref. Location: Delhi / NCR, Gurgaon, Chandigarh

Functional Area: IT Software - Application Programming /

Maintenance

Role: Software Developer

Industry: IT-Software/Software Services

Marital Status: Single/unmarried

Key Skills: Software Engineer, Software Developer, Application Development, Application Maintenance, Application

Support, Requirement Gathering, Requirement Analysis, Debugging, Bug Fixing, Coding, Testing, Client

Management, C#, ASp. net MVC, Web API, JavaScript, iQuery, CSS

Verified: Phone Number | Email - id

Last Active: 18-Jan-21 Last Modified: 18-Jan-21

Summary

- * A result-oriented professional with nearly 4 years of experience inweb technologies and enhancement in Microsoft Technologies (C#, Asp.Net); gained experience inloT (Internet of Things)
- * Experienced in end-to-end development of software products from requirement analysis to system study, designing, coding, testing, de-bugging, documentation, implementation and maintenance
- * Successfully implemented process improvements in projects;enhanced applications by identifying opportunities for improvement, making recommendations and designing & implementing systems
- * Swiftly completed projects such as Silver Fox Enterprise Application, Infratrac Enterprise Application, SVM Enterprise Application and Internet of Things) Research & Development Wingwith cross-functional skills and ensuring on-time deliverables within preset parameters

Work Experience

R Systems International as Software Engineer

Jan 2017 to Till Date

Growth Path:

Trainee Engineer Assistant Software Engineer Software Engineer Key Result Areas:

- ? Analyzing user needs and software requirements to determine feasibility of design within time and cost constraints
- ? Managing Software Development Lifecycle (SDLC) right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to maintenance of proposed applications
- ? Consulting with customers about software system design and maintenance
- ? Ensuring adherence to quality norms throughout the implementation process; identifying areas for modification in existing programs and subsequently developing these modifications
- ? Identifying, analyzing defects, questionable functions, errors, and inconsistencies in software program functions, outputs, online screens and content
- ? Following the project lifecycle methodology defined under the process framework; ensuring that customer deadlines are met within project budgets
- ? Communicating with internal/external clients to determine specific requirements and expectations
- ? Conducting system study and coordinating with team members for product documentation, system design & integration, coding and application maintenance

Education

UG: B.Tech/B.E. (Computers) from IMS Engineering College in 2016
