## Summary

As an experienced professional, I want to use my skills, technologies that I am familiar with and innovative thoughts to benefit

organization in the long run and help me in building my career.

## Work Experience

**Deloitte** as Associate Analyst Aug 2018 to Till Date

Working on Guidewire software - a tool that offers an industry platform for property and casualty (P&C) insurance carriers in the U.S. and worldwide

Working as a part of the Guidewire Policy Center development team for a leading digital insurance provider.

Have had hands on experience in design and development in Guidewire Technology using Gosu Language (like Java). Passion to assimilate and work with new technologies.

Triaged, developed and shipped defects and enhancements to production.

Lead development on a third-party integration, helped establish functional requirements and datamapping, and coordinated third-party developer team.

Developed and shipped time-sensitive enhancement which involved regulatory changes and participated in requirement gathering sessions and elaboration sessions with client team.

Participated in daily stand-ups, weekly retrospectives and sprint planning and became familiar with Jira, Jenkins, Git flow, and agile development.

#### **Education**

UG: BCA (Computers) from Graphic Era University, DEHRADUN in 2018
