# Work Experience

CDAC as Project Engineer -Full Stack Developer Feb 2019 to Till Date

PROJECTS LIST:

1] Project: ParaDE (Parallel Development Environment)

Technologies: Angular 7, Node Js

Description: The scope of this project is to develop web based IDE for HPC cluster. IDE supports browser based login to HPC cluster and user can create/upload project, compile and execute project on HPC cluster. This allows user to use all software from HPC cluster from browser without any installation and configuration problem on client machine. My responsibilities in project are full stack web development of project which includes creating modular front end components using angular, integrating UI for text editor, debugger, project explorer, etc. And api creation for same using angular.

2] Project : Suparikshan Technologies: PHP, MySQL

Description: The scope of this project is to develop web based monitoring and management tool for HPC cluster. Suparikshan gives knowledge about overall health of HPC cluster to user like CPU/GPU details, network details, job details. And all details are displayed using Graphs and tables to make monitoring easy for user. My responsibilities in the project are updating front end and mysql queries to get particular data according to requirements of users.

#### **Education**

UG: B.Tech/B.E. (Computers) from savitribai phule pune university in 2018

PG: PG Diploma (DAC) from Centre for Development of Advanced Computing (CDAC) in 2019
