Summary

- Over 5.0 Years of experience in IT in SAS programming / SAS DI/ SAS EBI Content Development in areas including design, development and implementation and administration of business applications and analysis using SAS BI tools.
- Managed team of 3 to 4 people, to develop the File Review project for Phase I and II and lead a team to develop the
- Provided Risk Adjustment trainings, SAS programming and Talend Data Integration tool trainings for new hires and junior employees.
- Answered client ad-hoc requests by deep diving into the data and connecting the different process people to come up with the best conclusion.
- Created multiple documents that capture the detail of each step of the Sampling process that can be used for future purposes and new employee training materials
- Generated data reports for data quality control.

Work Experience

- LTI as Software Engineer May 2017 to Till Date
 - Over 5.0 Years of experience in IT in SAS programming / SAS DI/ SAS EBI Content Development in areas including design, development and implementation and administration of business applications and analysis using SAS BI
 - Managed team of 2 to 3 people, to develop the File Review project for Phase I and II and lead a team to develop the project at same time
 - Provided Risk Adjustment trainings, SAS programming and Talend Data Integration tool trainings for new hires and junior employees.
 - Answered client ad-hoc requests by deep diving into the data and connecting the different process people to come up with the best conclusion.
 - Created multiple documents that capture the detail of each step of the Sampling process that can be used for future purposes and new employee training materials
 - Generated data reports for data quality control.
 - Expertise in working with SAS DI Transformations Append, Extract, Table Loader, Lookup, Data Validation, SQL Join, Surrogate Key Generator, Loop, SCD Type 2, File Reader, File Writer, Sort, Splitter and User written Transformations.
 - Worked independently and as a team on multiple protocols for any ad-hoc requests while supporting the project. Done POC in Talend Data Integration Studio. Expertise in working with Talend Transformations-
 - tMysqlConnection,tMysqlInput,tMysqlOutput,tFileInputDelimited, tFileOutputDelimited, tMap, taggrigate, tJava, tPreJob, tPostJob,tSendmail and used different Data quality ,Database, Custom ,logs and Errors, system and Orchestration component.
 - Created SAS programs for new quality measures and updates to existing specifications.
 - Ensure that pre & post-production quality is complete and accurate.
 - Done with automations to save the manual efforts and time.

Important

· Using Free CV Search you have access to featured candidate profiles of Naukri. You can browse through the profiles and email the candidates of your choice directly using the email option provided. To prevent misuse of candidate information, contact details and attached resume of the candidates have been withheld

- * Experience extracting data from multiple source systems and translating this data into meaningful analyses, reports and recommendations
- * Communicate effectively with peers, Project Leads, Management and Customers.
- Good spirit of work and teamwork and highly skilled with Mcrosoft Visio and MS Office.
- Strong proven knowledge in Base SAS, SAS/SQL, SAS/Macro, SAS/Access.
- * Experience on various procedures like Proc Means, Proc Summary, Proc Append, Proc Tabulate, Proc Import, Proc Export, Proc Datasets, Proc Contents, Proc Format, Proc SQL, Proc Sort, Proc Print, Proc Report, Proc Copy etc.
- * Excellent understanding and experience on advanced SAS like macro, auto-call macro.
- * Able to develop reporting applications in using various delivery methods including SAS Information Delivery Portal involving database programming as well as significant use of the SAS Business Intelligence suite including Management Console, Information Map Studio, Web Report Studio.
- Formatted HTML, PDF and RTF reports, using SAS output delivery system ODS.
- * Proficiency in SCHEDULING and DISTRIBUTE web reports, scheduling jobs in DI.
- * To deliver actionable information to make the business decision.
- Knowledge of parallel processing in SAS.
- * Knowledge in data management like Merging, Concatenating, Interleaving and Moving of SAS.
- Datasets, Connecting to Oracle using SAS
- * Good knowledge about the DEPLOYING JOBS (SAS Management Console)

Wipro Technology as Associate Consultant

Sep 2015 to Mar 2017

Project Title Data loading for Investment Analysis DWH

Period SEP-2015 to Mar -2017

Description Project is to load data from source system which are flat files, delimited with CSV. These files contain transactions related to investments in different financial asset classes. Data is loaded on every week end. There are around 150 investment classes.

Role As a SAS ETL Developer/Programmer Responsible for

- * Getting Requirement from project manager or onside coordinator to mail.
- * Understanding requirement with taking help from business analyst.
- * Understanding database table with taking help from DBA
- * Developed ETL jobs using SAS code.
