Summary

Saket is a hands-on Senior Java Engineer with experience working for start-ups, scale-ups and large enterprise.

He has close to a decade of experience working with technologies from traditional to cutting-edge; from old-school web apps to cloud-native microservices. Saket has deep knowledge of financial services, with experience working for tier-one banks to disruptive FinTech start-ups.

Work Experience

The Weird Science as Director

Jun 2018 to May 2020

Saket is an experienced Java developer worked extensively on Java and related frameworks

Senior Java Engineer @ Backbase Academy

Netherlands (3 months)

As a senior backend engineer, Saket is currently helping Academy in Backbase to develop backend solution for booking their trainings and offerings online with the help of Spring Boot 2 and Java 11.

? Senior Java Engineer @ Backbase Customer Success

Singapore (9 months)

As part of customer success team, Saket was responsible for supporting and consulting customers in the APAC region and developing inhouse localised solutions based on open banking standards (eg. New Payments Platform Australia, and Payments New Zealand)

Senior Java/DevOps Engineer @ Westpac Business Segments

New Zealand (5 months)

Saket joined a multidisciplinary team as a "T-shaped" engineer. He was responsible for developing best practices for the business value stream, including setting upb T/BDD quality gates for a continuous delivery pipeline of backend and frontend deliveries.

Capgemini as Senior Consultant

Feb 2015 to Apr 2018

Saket worked as a consultant for various clients in the Middle East, Asia Pacific and Europe where Saket traveled regularly as tech lead of a nearshore Centre of Excellence (CoE) in Pune, India.

e-Zest as Software Engineer Feb 2014 to Jan 2015

Saket implemented features of a cloud-based enterprise resource planning solution with thousands of individual use-cases.
