Summary

Profound result-oriented experience of almost 5.6 years in iPhone Application Development. I have developed applications in both Swift and Objective-C languages.

Good understanding of Swift language programming pattern, iOS frameworks, best practices. Experience on HTTP and restful web services. Familiar with application design patterns like MVC, MVVM, Singleton and good hands on UI design using autolayout.

I'm passionate about quality and maintainability when it comes to code and application architecture. I am always eager to learn new technologies and look for ways to better myself in this rapidly changing industry.
