Work Experience

Incedo Technology Solutions limited as java developer-IT

Jan 2020 to Till Date

Project Title iEN -E2E Migration (CAT-E2E Migration)

Client Verizon

Environment Spring Boot, Rest API, Micro services, React js, Angular 7

Duration Nov 2020 - Present

Team Size 8

Project Description:

Provides the ability for Local Transport Planning/Engineering to Review VZB TCOMS Devices to be Decommissioned and Create NFID's and CCR's based on VZB TCOMS ZF NAR Device Data

The VZB TCOMS Review Totals Screen will allow the Planner to see total counts of devices ready for "Engineer Review" in each Building. They can select Planners Name and/or Sales City and/or TCOMS Building ID and the search will return the totals for the buildings within that grouping. The count value will be by building and each count value will be a link that opens the Engineer Review Screen and shows the list of devices requiring editing. The planner will use this screen to see

what TCOMS Building requires an "Engineering Review" and new Decom CCR's created.

Responsibilities:

Involved in Client interaction on regular basis to understand the Business of the Client.

Implemented Business logic based on the requirements and implementation of user requirements in

E2E Migration.

Used spring boot Rest API in service layer

Implemented Dao's and their implementations With Spring JDBC

Involved in front development using React is, Canvas

Project #1:

Project Title CAR-Roadshow

Client Verizon

Environment Spring Boot, Rest API, Micro services, React js, Angular 7

Duration Jan2020 -Nov2020

Team Size 8

Project Description:

Roadshows are visits to the field engineering teams to better understand users' pain points in working with CoFEE and various extensions of it (i.e. connections to other Native systems). The discussions with IT partners while the Engineering teams demo and show us what problems are blocking their ability to do their job successfully. Items identified at Roadshows are split up to be addressed by different teams. Our CIAT team will deliver on the Goals stated below.

Responsibilities:
