#### **Work Experience**

• Auto Injury Solutions (a CCC company) as Agile Product Owner -IT Dec 2016 to Till Date

Oversaw development of new property & casualty insurance products by collaborating with key stakeholders to define goals and ensure timely execution of projects using Agile methodologies. Analyzed business requirements to develop and define high-level epics and user stories to create a prioritized Product Backlog.

Wrote clear, concise and easy to understand user stories that are driven by VOC and provide business value.

Led, arranged and facilitated all Agile ceremonies including Stand-ups, Reviews, Retrospectives, Grooming, Sprint and Release planning.

Tracked and communicated team velocity and sprint/release progress to all teams and management using Agile estimation techniques.

Assisted in defining and developing the product deployment plan and produced high-quality user documentation for product releases.

Performed UAT on stories to validate that they meet acceptance criteria.

Conducted demos of the product to internal stakeholders and customers to gain feedback and incorporated feedback into the delivery team's product backlog.

Leveraged data-driven insights to inform the product development lifecycle.

NESS as Business Analyst/Project Manager Feb 2015 to Apr 2016

Managed end-to-end strategy, development and execution of new digital products and technology platforms for a Retail and Corporate banking client, following a User Centered Design approach. Worked as a liaison between business stakeholders and development team and collaborated with a variety of cross-functional stakeholders in driving projects from concept through production. Represented the product vision, road map and growth opportunities to the development team. Planned and prioritized product features by assessing their value and translating business
