Verified :   Phone Number | Email - id

Total Experience: 3 Year(s) 0 Month(s)

Notice Period: Currently Serving Notice Period

Highest Degree: B.Tech/B.E. [Electronics/Telecommunication]

Last Active: 18-Jan-21   Last Modified: 18-Jan-21

Summary

I am a tech enthusiast and quick learner. I would love to work on Data science and web development technology stack. I have extensive experience in Python language. I love to solve real world problems using latest technologies

Work Experience

Tata Consultancy Services Ltd. as Python Developer
Dec 2017 to Till Date

I develop web portal with Python's Django and Flask framework. Also, I write Data mining and automation script. Building big data framework on Linux based HPC (High Performance Computer) to run various resimulation, deep learning and event extraction jobs. I have used Pandas, NumPy, reportlab, sklearn, pytorch and many more Python modules. Also, I have working knowledge of HTML, CSS and JavaScript to build frontend webpages. I use Git for version control. Also, I manage team of four developers while working in Agile environment with the use of Jira. Along with this I have knowledge of React.js, docker, kubernetes technologies.

Education

UG: **B.Tech/B.E. (Electronics/Telecommunication)** from **Shivaji University, Maharasthra** in **2017**

Other Qualifications/Certifications/Programs:

Applied Machine Learning in Python by Coursera

Python beyond the basics by Pluralsight

Machine Learning by Andrew Ng Coursera
