Software Engineer seeking roles in Software Engineering,Software Development,Application Support,Project Management,Change Management,Defect Management,Quality Management,Requirement Gathering,Debugging,Performance Tuning,SQL Server,SSRS,SSIS

Current Designation: **Software Engineer**

Current Company: **L&T Infotech**

Current Location: **Hyderabad / Secunderabad**

Pref. Location: **Mumbai,Bengaluru / Bangalore,Hyderabad**

Functional Area: **IT Software - Application Programming / Maintenance**

Role: **Software Developer**

Industry: **IT-Software/Software Services**

Marital Status: **Single/unmarried**

Key Skills: Software Engineer/Developer,Software Engineering,Software Development,Application Support,Project Management,Change Management,Defect Management,Quality Management,Requirement Gathering,Debugging,Performance Tuning,SQL Server,SSRS,SSIS

Verified : **Phone Number |** **Email - id**

Total Experience: **6 Year(s) 0 Month(s)**

Notice Period: **1 Month**

Highest Degree: **MCA [Computers]**

Last Active: **22-Jan-21** Last Modified: **22-Jan-21**

Summary

Technically Sophisticated Professional with experience of 6.1 years .Currently associated with Larsen & Toubro InfoTech, Mumbai working as an Software Engineer with strong knowledge of technologies SQL Server2008R2, 2012, SSIS & SSRS.

*   Experience with T-SQL (DDL & DML) in Implementing & Developing Stored Procedures, Triggers, Nested Queries, Joins, Cursors, Views, User Defined Functions, Indexes, Creating & Updating tables.
*   Expertise in writing T-SQL Queries, CTE, sub-queries and complex joins for generating Stored Procedures, User-defined Functions and Views.
*   Very good T-SQL Programming skills. Experience in query optimization & performance tuning. Used SQL Profiler, Execution Plan.
*   Having experience in preparing packages by using different transformations like look ups, derived column, merge join, for loop, for each loop, conditional split, union all, script component etc.

Work Experience

L&T Infotech as Software Engineer
Mar 2017 to Till Date

Project-Honda (Analytics and Information Management)
Description:
Support and Development for existing Jobs and SSIS packages for close to 30 applications related to Manufacturing, Supplier Relation Management, Occupational Health Management and others.

Responsibilities:
*   Up gradationMigration of SSIS Packages in older versions of SQL to SQL Server 2016.
*   Develop stored procedures, function, and SSIS packages.
*   Work on Change Requests or Enhancements of existing Stored Procedures and SSIS Packages.
*   Support for Existing Jobs and SSIS packages.
*   Issue resolutions for job or package failures in production environment within SLA timings.
*   Work on Data Management and monitoring for Critical applications.
*   Debugging and Troubleshooting SSIS Packages
*   Deployment of New Code or Changes to higher environments, UAT and then Production.

Project-Siemens (Siemens Park Based):
Description:
       Siemens Park Based is a Renewable Energy Project. All Jobs are built by using visual basic .Net, Python, SQL and scheduled through windows services where need to migrate technology into SSIS and scheduled jobs using SQL Server Agent.
Responsibilities:
*   Analysis of existing visual basic, Python codes and Communicated with business to discuss the understanding, requirements and issues.
*   Create Low-Level design and high-level design document.
*   Developed SQL codes and ETL programs using SSIS to implement the business requirements.
*   Test SQL codes and ETL mapping and created Unit test cases and Integration test cases with screenshots.
*   Schedule all SSIS packages using SQL Server Agent.
*   Performed unit testing at various levels of the ETL and actively involved in team code reviews.
*   Production Support has been done to resolve the ongoing issues and troubleshoot the problems.
*   Effectively used SSIS for defining mapping variables, workflow variables and relational connections.
*   Involved in enhancements and maintenance activities also actively involved in team code reviews.
*   Created SSRS and EXCEL report to find only Issues Park and scheduled it by mail.
Project-Chevron (System Base Costing):
Description:
System base costing is Spotfire Analysis consisting reports using Spotfire visualizations and showing various cost of different areas, equipment and where the money invested.

Responsibilities:

*   Used SSIS to create .dtsx packages to validate, extract, transform and load data from different source's and mapped them onto destination.
*   Deploying, Scheduling and Monitoring SSIS Packages
*   Debugging and Troubleshooting SSIS Packages
*   Designed, reviewed, and created primary objects such as views, indexes based on logical design models, user requirements and physical constraints.
*   Creating views as required by front-end developer for easier implementation for Spotfire reports.
*   Created indexes on selective columns to speed up queries and analyses in SQL Server Management Studio.
Project-Maersk supply service:
Description:
Maersk Supply Services (MSS) has begun a journey to build a complete data warehouse pertaining to the entities related to their finance, vessels management and incident modules.
Responsibilities:
*   Responsible for build packages, Issue-resolution, Documentation.
*   Expertise in data warehousing concepts
*   Developing SSIS Packages to Load Data from various sources
*   Deploying, Scheduling and Monitoring SSIS Packages
*   Debugging and Troubleshooting SSIS Packages
*   Using checkpoints and precedent constraints in a control-flow
*   Developing master/parent and child packages for deployment
*   Optimization and performance tuning for SSIS packages
*   Using non-blocking transformations in data loading for better performance
*   Generating drill-down, drill-through and parameterized reports

Education

UG: **B.Sc (Computers)** from **Andhra University** in **2010**

PG: **MCA (Computers)** from **Andhra University** in **2013**

IT Skills

Skill Name	Version	Last Used	Experience
MS SQL Server 2008, 2012 / 2014.			
SSIS (SQL Server Integration services).			
SSRS,POWER BI, SQL, T-SQL			
MS Excel, MS Word			
Windows XP/7/10, Windows 2008 server
