Working as a full stack JavaScript developer on technologies like ReactJS and NodeJS.

Work Experience

Deloitte Towers as Business Technology Analyst
Jan 2017 to Till Date

Client: HPE
* Currently working as a NodeJS developer for HPE.
* It involves creating RESTful API's for third party systems where we are the middleware.
* Implemented various new techniques like file streaming and OAuth 2.0
* Technical Environment: NodeJS v8
Client: Tyson Foods
* Worked as a full stack developer in creating 2 out of 4 applications end to end using NodeJS, ReactJS and AWS. Created a RESTful API using NodeJS following the AWS serverless approach.
* The Rest calls were implemented using async/await, the latest introduction in Node v8. Used ReactJS for implementing the front end and authentication using SSO where users will be extracted from Microsoft AD and will be authenticated at the backend to verify the token.
* Used MySQL as the Database.
* Technical Environment: NodeJS v8, ReactJS v16, MySQL, VS Code
