Projects

Project Title: CDT - OTC CLEARING
Client: JP MORGAN
Nature of Employment: Full Time   Duration: Dec 2017 - Jun 2020
Project Location: United Kingdom   Onsite / Offsite: Onsite
Role: Sr. Programmer   Team Size: 15
Project Details: Clearing is the process by which OTC transactions move from being managed within a bilateral relationship. Clearing mainly depends on the clearing house, client and dealer. Basically clearing house is a financial institution providing settlement and clearing services for derivatives trades to its members. Client and Dealer are participants.

This project is mainly based on these applications (Compass, Rubi Workflow, Tradesphere). Compass is a single platform for interactions between JPM and Clearing House of global derivative markets. Its functionality includes receiving trades from the clearing house, matching against executions and allocations so that the trades end state can be confirmed with clearing house. Rubi and Tradesphere used to affirm the deal between and enriches the data based on risk type (Credit and Rates)

Project Title: Insight Migration into MYRIAD & CVA Data Feed Processing
Client: Credit Suisse, UK
Nature of Employment: Full Time   Duration: Mar 2014 - Oct 2017
          Onsite / Offsite: Offsite
Project Details: The Myriad is a single platform to standardize the Credit Risk and Market Risk data from different sources which includes volumetric validations, transformations, enrichments and extraction processes. The data handled from different sources are in .csv, .txt, .xml formats.

Project Title: Sybase Money Mobiliser 5.0 (SMM)
Client: Sybase Inc
Nature of Employment: Full Time   Duration: Jun 2012 - Feb 2014
          Onsite / Offsite: Offsite

Project Details: Sybase Money Mobiliser(SMM) provides a state-of-the-art Service Oriented Architecture (SOA) for true dynamic real-time integration and rapid application development. Providing mobile Commerce, mobile Money and mobile Payment relevant services based on the robust and extensive Mobiliser Components architecture. Its deals with all type real time process of a Bank.
