Graduate Engineer Trainee seeking roles in Software Development,Java Development,Application Designing,Requirement Gathering,Coding & Testing,Quality Assurance,Software Development Life Cycle,Functional Specifications,Technical Design,C,C++,MySQL

Current Designation: Graduate Engineer Trainee	Total Experience: 1 Year(s) 1 Month(s)
Current Company: Iris Software	Notice Period: 15 Days or less
Current Location: Noida	Highest Degree: B.Tech/B.E. [Computers]

Pref. Location: Lucknow,Delhi,Noida

Functional Area: IT Software - Application Programming / Maintenance

Role: Software Developer

Industry: IT-Software/Software Services

Marital Status: Single/unmarried

Key Skills: Graduate Engineer Trainee,Software Developer,Software Development,Java Development,Application Designing,Requirement Gathering,Coding & Testing,Quality Assurance,Software Development Life Cycle,Functional Specifications,Technical Design,C,C++,MySQL

Verified :   **Phone Number |**   **Email - id**

Last Active: 21-Jan-21   Last Modified: 21-Jan-21

Summary

* A B.Tech. graduate, experienced in creating Software Applications using Java, Hibernate and Spring framework
* Developed a Java based testing application and eliminated repetitive tasks for the quality department
* Knowledge of Object Oriented Programming Concepts
* Comprehensive knowledge of Software Development Life Cycle with proficiency in mapping of business requirements, technical documentation, custom designing solutions, development & troubleshooting for complex software & application problems
* Gained insightful experience in managing multiple Software Development Projects
* Completed a 3 months training program in IRIS on Java, Spring and Angular 8

Work Experience

Iris Software as Graduate Engineer Trainee
Sep 2019 to Till Date

Iris Software as Graduate Engineer Trainee
Sep 2019 to Oct 2020

IRIS Software as Graduate Engineer Trainee
Sep 2019 to Sep 2019

Key Result Areas:
*   Creating Web-based Applications using Core Java, Hibernate & Spring framework; executing project operations according to Service Level Agreements (SLAs), Standard Operating Procedures (SOPs) as well as interacting with clients, vendors & other key stakeholders
*   Developing and upgrading application along with other team members; gathering and understanding business requirements by engaging in the team
*   Providing technical support to the Application Development Team for testing, troubleshooting and debugging of applications; ensuring timely allocation of appropriate manpower for work
*   Participating in the Software Development Lifecycle (SDLC) right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to

maintain the proposed applications
*   Driving efforts towards maintaining software development practices; adhering to company standards for coding and unit/functional test coverage
*   Communicating with internal/external clients to determine specific requirements and expectations; managing client expectations as an indicator of quality
*   Interacting with users for requirement gathering; preparing functional specifications and low-level design documents

Projects Executed

Title: Citibank Banking Book
Period: Since Mar'20
Tools: Spring Boot framework, Actuator End Points
Role:
*   Understanding Spring Boot Framework and developing batch applications in Banking Book project
*   Monitoring project performance using Actuator End Points

Title: Billing Management System
Period: Nov'19-Jan'20
Tools: Spring Hibernate, Angular 8 and MySQL Database System
Role:
*   Designed and implemented a Maven project on Billing Management System using Spring Hibernate for developing the back-end connections and front-end API's
*   Angular 8 was used for designing the User Interface of the project

Education

UG: **B.Tech/B.E. (Computers)** from **Amity University (Lucknow)** in **2019**
