Key Skills: Software Engineer/Developer,Software Engineering,Software Development,Application Support,Project Management,Change Management,Data Warehousing,Quality Management,Requirement Gathering,Unit Testing,Teradata,Coding,Oracle,Python,Unix,SQL

Total Experience: **2 Year(s) 4 Month(s)**

Highest Degree: **B.Tech/B.E. [Electronics/Telecommunication]**

Verified : **Phone Number |** **Email - id**

Last Active: **18-Jan-21** Last Modified: **18-Jan-21**

Summary

*   2.5 years of experience in ETL using Teradata Utilities & SIT/UAT batch support.
*   Possess extensive knowledge on Teradata architecture, Teradata SQL, Teradata utilities, Data warehousing concepts also having experience in performance tuning of queries using Teradata.
*   Possess experience in developing mappings and process flows for ETL tasks using Keystone and Data pipeline, Oracle.
*   Proficient understanding of Software Development Life Cycle (SDLC).
*   Involved in Requirement Analysis, Functional and Technical Design, Coding, Preparing and Executing test cases, Unit testing, Peer reviews, Code deployment and Issue resolution
*   Experience in understanding the business critical models and requirements, analyse them and implement them with minimal bugs..
*   Excellent in technology-adaptability.
*   Ability to learn new technologies in quick succession and implement using them.

Work Experience

Quest Global as Software Engineer
Aug 2018 to Till Date

Project   PFI
Client   Apple Inc.
Duration   5 months
Platform   Teradata, Oracle, Unix, Autosys Jobs
Responsibilities   *   Responsible for implementing the ETL changes in the mappings and process flows.
*   Testing queries in Teradata and performing query tuning.
*   Creating and changing jils and profile files for Autosys scheduling.
*   Worked for this project as developer, gathering requirements from business users, Delivering code to Dev, UAT and Production.
*   Involved in unit testing, integration testing and preparing test cases.
*   Involved in peer-to-peer reviews.
Description   This is one of the downstream applications of GBI contact centre. Here we have inducted the contact centre data to multiple EDW tables. On top of these tables the semantic layer is created.

Project   CST

Client   Apple Inc.
Duration   22 months
Platform   Teradata, Oracle, Unix, Keystone
Responsibilities   *   Worked on multiple releases.
*   Responsible for implementing the ETL changes in the mappings and process flows.
*   Testing queries in Teradata and performing query tuning.
*   Creating and changing json file for extractor and loader processes for keystone interfaces.
*   Creating and changing AVRO Schema.
*   Worked for this project as developer, gathering requirements from business users, Delivering code to Dev, UAT and
Production.
*   Involved in unit testing, integration testing and preparing test cases.
*   Involved in peer-to-peer reviews.
Description   As part of project we have inducted the apple internal ticketing tool data to multiple EDW tables. On top of
these tables the semantic layer is created.

Education

UG: **B.Tech/B.E. (Electronics/Telecommunication)** from **Silicon Institute of Technology, Bhuvaneshwar** in **2018**
