Magnitude Software as NoetixViews Developer and Admin
Aug 2017 to Jul 2018

Project#2

Title: Noetix Views for Oracle Apps (Operational reporting solution for EBS)
Role: Administrator and Support Engineer
Team Size: 10
Environment: Noetix Views, Oracle Apps R12, SQL and PL/SQL
Duration: Aug?17 ? till date
Work Location: Hyderabad

Description

Magnitude Software?s Operational Reporting Solution (NoetixViews) is the leading real-time business intelligence reporting solution for Oracle E-Business Suite. With more out-of-the-box Oracle EBS content than any other vendor, Magnitude NoetixViews delivers the fastest connection between decision makers and operational data, streamlining the manually-intensive process of implementing reporting tools and enterprise-wide BI initiatives.

Magnitude NoetixViews installs quickly, enabling users to start accessing data in a matter of days or even hours. Used in conjunction with Magnitude Noetix Platform or any reporting tool, NoetixViews enables organizations to leverage their current business intelligence infrastructure and tools and deliver faster, easier access to operational data.

Although the views out of the box will satisfy most of your reporting needs, they can be customized and extended with Magnitude NoetixViews Workbench to meet your most challenging and evolving requirements.
