Summary

5+ years of industry experience as an Android Developer.
Possessing good communication skills, and being able to express
myself clearly allows me to easily work with international people.
Hands-on experience of building android apps from scratch using
Java and Kotlin.
Deep understanding of designing database in SQLite & Room.
Follow Scrum-Agile best practices in day-to-day life in complete
SDLC (Documentation, Development, Testing, Delivery and
Maintenance).
Hands-on work experience with Data Binding, Google Map, Jetpack
Navigation, Retrofit to consume RESTful APIs, MVVM, RxJava as
well as not sacrificing Unit testing while development.
Have a good track record of delivering apps and making sure its
pixel perfect as per the designs (Figma, Adobe XD).
Experience working with Native CPP (.so), Bluetooth (BLE), Wifi Api
integration, MQTT with Android Apps.
