Summary

An enthusiastic professional working for almost 4 years as a Software developer.
Experience in working on wide variety of software solutions like Desktop Application, Web Applications, Big Data Applications.
Known for picking things up with newer project or technology quickly and in proper manner.
Well appreciated by the delivery managers to provide high quality output, no matter the time pressure.
Skilled in identifying potential future issue that can occur based on the business scenario and the architecture.
Having Exposure in managing a small sized team for distribution of work and discussing a high level design for each of the member's work.

Work Experience

Mindtree as Software Developer
Jul 2017 to Till Date

JANUARY 2018 - CURRENTLY WORKING
TOOLS & TECHNOLOGIES: SPARK-SCALA, HADOOP, HBASE, OOZIE, HIVE
This project works on providing an Airline group solution to adjust their passenger fair to get the maximum profit as per the demand seen with the history of ticket selling. My responsibility in the project was to work on several Batch Jobs written with Spark Scala, analyzing the requirements and coming up with effort estimation as per the team's capacity. I have worked on developing various new workflows with Oozie and worked on optimizing the existing Spark jobs and working on new as well. We worked in an Agile methodology following all the conventional Agile ceremonies.

JULY 2017 - JANUARY 2018
TOOLS & TECHNOLOGIES: .NET CORE C#, SQL SERVER, DAPPER ORM, ANGULAR 5
The purpose of this project was to provide solution for filling Visa Application, Quality Check of Visa Application and provide Customer support. My responsibility in the project was to develop Microservices using ASP.NET Core C# and configure/update Database to support for the service. We followed TDD and Agile methodology.

Education

UG: **B.Tech/B.E. (Computers)** from **chandigarh engineering college, landran** in **2017**
