Work Experience

Progress Software Development Pvt.Ltd as Technical Support Engineer
Aug 2019 to Jun 2020

Description: Kinvey breaks the mold of traditional approaches to innovation by being purpose-built to deliver enterprise-grade multichannel experiences running on a modern server less cloud platform.

Kinvey allows to develop the app with any other front-end technologies. Currently it supports 9 technologies to integrate with.

Being a Senior Technical Support engineer, my daily work involves attending calls from customer, understanding their requirement or issues followed by creating a POC and sharing the same knowledge with the customer. Also, Kinvey has lot of customers who create support tickets on issues which they face during their development.

Also, I am a web application developer with .NET Technologies(C#, ASP.NET, ASP.NET MVC, WEB API and ASP.NET Core). Also i am proficient in front end technologies like Angular, JavaScript and backend technologies SQL.
