Vinay Varma Dandu ⭐ Featured

A dedicated & dynamic IT Professional with 6+ years of hands on technical experience & expertise as data engineer using cloud technologies and client/server technologies with consistent and continuing contributions in various key projects

Current Designation: **Data Engineer**

Current Company: **Gathi Analytics Pvt.Ltd**

Current Location: **Hyderabad / Secunderabad**

Pref. Location: **Hyderabad**

Functional Area: **IT Software - Application Programming / Maintenance**

Role: **Software Developer**

Industry: **IT-Software/Software Services**

Marital Status: **Single/unmarried**

Key Skills: big data,hive,hadoop,python,java,sqoop,scala,Spark,Apache kafka,azure data factory

Verified : **Phone Number |** **Email - id**

Total Experience: **6 Year(s) 0 Month(s)**

Notice Period: **3 Months**

Highest Degree: **B.Tech/B.E. [Information Technology]**

Last Active: **7-Nov-20**   Last Modified: **7-Nov-20**

Summary

*   Focussed professional with nearly 3 years of experience in Mobile Application Development & Maintenance and Project Execution in Android
*   Expertise in analysing information system needs, evaluating end-user requirements, designing custom solutions and troubleshooting for complex information system management
*   Knowledge of Android Application Development (Enterprise Mobility Solutions)
*   Proficient at working with clients, Business Managers and Technical Teams for executing concurrent projects; possess a customer-centric and systems-driven approach to design business solutions
*   Skilled in technical documentation, design, development and troubleshooting for Mobile Application Development (using Java, Android Applications)
*   Capability to analyse and interpret unique problems, with a combination of training experience and logical thinking to find the right solutions

Work Experience

Gathi Analytics Pvt.Ltd as Data Engineer
Jul 2017 to Till Date

Focussed professional with 6 years of experience in providing stellar service to IT organization.
3 years of experience in Apache Hadoop eco system and Apache Spark.
Comprehensive hands-on experience on Big Data technologies like Hadoop, HDFS, Hive, Pig, Sqoop, Spark, Scala, spark Sql, HBase and Java.
Hands on experience in Full loads and Partial loads in HIVE tables.
Efficient in building HIVE scripts.
Conceptual knowledge on HBASE.
Experience on importing and exporting data from different systems to HDFS using SQOOP.
Hands on experience on Apache Kafka.
Expertise in analysing information system needs, evaluating end-user requirements, designing custom solutions and troubleshooting for complex information system management
Proficient at working with clients, Business Managers and Technical Teams for executing concurrent projects; possess a customer-centric and systems-driven approach to design business solutions.
Experience in working with different data sources like Flat files and Databases.
Load and transform large sets of structured, semi-structured data using Hadoop ecosystem components.
Skilled in technical documentation, design, development and troubleshooting for system processes and procedures for future references.

Capability to analyse and interpret unique problems, with a combination of training experience and logical thinking to find the right solutions

Schemax Experts Techno Crafts Pvt. Ltd as Software Developer
Mar 2014 to Jul 2017

Key Result Areas:
*   Planning, coordinating and conducting multiple complex software engineering activities; creating and participating in software planning and estimating, status monitoring and reporting
*   Devising new approaches, applying existing criteria in new ways and drawing conclusions from comparative situations
*   Managing the areas of software designing, prototyping, systems integration, software coding and unit testing
*   Troubleshooting for program errors in existing systems; making recommendations on the assessment of tools and software products.
*   Participating in mandated engineering reviews; managing various technical aspects like coding of modules given the design specifications, debugging and fixing the defects as well as analysing its root cause
*   Ensuring that business requirements and functional specifications for the components are tested and fulfilled before the code is delivered for integration
*   Coordinating with team members for system design, integration, application maintenance and so on; cooperating with other teams across the organization for efficient work progress
*   Following best practices for project support and documentation, keeping a track of growth and progress of the project
*   Understanding and mapping client's requirements/ enhancements to the product; implementing solutions that effectively resolve problems
Highlights:
*   Analysed the market needs and designed the applications blueprint; investigated the applications performance using Virtual Android Emulator; developed the project report and delivered to Project Administrator
*   Performed diverse roles in application design including the documentation, requirements analysis, development and testing of the application

Education

UG: **B.Tech/B.E. (Information Technology)** from **JNTU kakinada university** in **2013**

Other Qualifications/Certifications/Programs:

Microsoft Azure 70-475
