Summary

I am an Application Development Analyst with experience in Salesforce Development and Administration, Automation anywhere Tool, IBM Lotus Notes software, Business Process Automation, Automation Testing and Functional Testing. My daily activities include performing detailed analysis of business process requirements and provide appropriate system solutions; identify, interpret, validate and document customer requirements along with proposing the best possible solution with minimal impact, providing quick and effective support for reported issues and providing automation use cases and solutions to customers. I am an ardent learner and would prefer a challenging atmosphere which gives me a certain autonomy to experiment and leverage my skills.

Work Experience

Capgemini as Consultant
Nov 2020 to Till Date

Accenture Solutions Pvt. Ltd as Application Development Analyst
Apr 2017 to Nov 2020

I am an Application Development Analyst with experience in Salesforce Development and Administration, Automation anywhere Tool, IBM Lotus Notes software, Business Process Automation, Automation Testing and Functional Testing. My daily activities include performing detailed analysis of business process requirements and provide appropriate system solutions; identify, interpret, validate and document customer requirements along with proposing the best possible solution with minimal impact, providing quick and effective support for reported issues and providing automation use cases and solutions to customers. I am an ardent learner and would prefer a challenging atmosphere which gives me a certain autonomy to experiment and leverage my skills.
I have received multiple recognition and appreciation from my clients for my involvement in gathering business requirements and providing effective and time saving solutions.
I am also what you call "A Jack of all Trades", I like to learn multiple things like AWS, IoT, TOSCA, Desin Thinking, DevOps, Video Editing, Graphic Designing, Business Story telling and Event management. I need to perform multiple variety of tasks to keep me motivated and enthusiastic, which I do by planning and prioritizing my work using required tools.
I was called "A blessing in disguise" by my Managing Director (MD) for my energy and ideas which I used in organizing multiple Delivery Unit (DU) level events including flashmob, Annual Function, Team Building activities.

I also won Innovation Quiz and took art in multiple innovation contests in Accenture for which I received recognition points from my DU Lead.on 7th June, 2019

Pole To Win International as Trainee Test Engineer
Sep 2016 to Mar 2017

My role in this company was of Trainee Test Engineer, I was part of a team which used to perform multiple test execution, test cases preparation, sanity testing smoke testing, regression testing on mobile applications on multiple devices including iPhone(s), Android phones, tablets etc.
I was responsible handling daily calls with stake holders regarding test execution status, continuous co-ordination with application and SME's and Developers about reported bugs on bug tracker, preparing and sending weekly matrix, requirement trace-ability matrix, UAT scripts and test scripts.
We used to work on tools like JIRA, slack, Selenium and Appium
