Sr. Engineer seeking roles in Software Development,Application Programming,Application Maintenance,Project Management,Requirement Analysis,Solution Architecture,C#,Angular,ASP.NET MVC,MS SQL,Web API,Entity Framework,HTML,Bootstrap,JavaScript

---

Current Designation: Sr. Engineer - Full Stack Developer - Angular and Dot NET

Current Company: Tata Elxsi

Current Location: Bengaluru / Bangalore

Pref. Location: Bengaluru / Bangalore,Chennai,Pune

Functional Area: IT Software - Application Programming / Maintenance

Role: Software Developer

Industry: IT-Software/Software Services

Marital Status: Single/unmarried

Key Skills: Sr. Engineer,Software Development,Application Programming,Application Maintenance,Project Management,Requirement Analysis,Solution Architecture,C#,Angular,ASP.NET MVC,MS SQL,Web API,Entity Framework,HTML,Bootstrap,JavaScript

Verified :   Email - id

Total Experience: 2 Year(s) 4 Month(s)

Notice Period: 3 Months

Highest Degree: B.Tech/B.E. [Information Science and Engineering]

Last Active: 20-Jan-21   Last Modified: 20-Jan-21

Summary

B.E. (Information Science & Engineering) professional offering over 2 years of experience in Software Development using .NET and Angular technology
Skilled in ASP.NET MVC, MS SQL and client-side web development; managed the most complex database design project - ERP Applications Project
Possess strong understanding of SDLC life cycle using Agile methodology
Hands-on experience in developing Dashboard Application, Enterprise Application & OTT Web Applications for E-commerce & OTT Platforms
Pivotal in conducting requirement gathering, system analysis as well as executing technical/ functional specifications in an effective manner
Expert in end-to-end development of applications from requirement analysis to system study, designing, coding, testing, documentation and implementation
Supported the Development and Test Teams by ensuring that the relevant test databases reflected the latest changes in the product, created SQL queries for views, data extraction and migration.

Work Experience

Tata Elxsi as Sr. Engineer - Full Stack Developer - Angular and Dot NET
Aug 2018 to Till Date

Growth Path:
Aug'18 to Sep'20 as Engineer
Since Oct'20 as Sr. Engineer

Key Result Areas:
Developing software solutions by analysing information needs, conferring with users, studying systems flow and work processes
Gathering the requirements from the users; preparing functional specifications and low-level design documents
Managing the maintenance of program modules including operational support, problem resolution, production support, preventative and corrective maintenance and enhancements
Analysing and modifying existing codes to incorporate the required changes in the application/ user requirements, writing new codes as required

- Assisting in determining operational feasibility through analysis, requirement analysis, and proposing solutions
- Documenting software solutions through flowcharts, layouts, diagrams, charts, code comments and clear code
- Formulating solutions for given technical specifications; installing application software and deploying customizations; contributing to the code reviews
- Testing modules developed by self & the team to ensure that these are as per desired quality standards; writing test specifications and conducting tests
- Providing third level incident escalation support to the Technical Support Group for customization problems
- Supporting in the production deployments of the developed solutions
- Operating with Product Management Team and engaging with the internal customers to understand requirements and gather feedback on solutions
- Performing analysis, design, verification, demonstration and maintenance of products in team environment
- Creating and executing unit/ basic/ functional test cases and framework
- Contributing to the software improvements process (products, processes, methods, tools), design inspection and code review
- Partnering with stakeholders during problem diagnoses, requirements gathering, detailed level design, development, system test and production implementation to ensure that optimal resolutions are achieved
- Enhancing modules delivered to production by rewriting/developing new code to improve the efficiency/effectiveness of systems
- Reporting the overall status of the project to the clients, senior management and stakeholders

Achievement:
Recognised with a Bravo Award for developing dashboards and an application in a very short span of time in 2020

Education

UG: **B.Tech/B.E. (Information Science and Engineering)** from **Malnad College of Engineering, Hassan** in **2018**
