## Work Experience

**Philips Innovations** as Software Developer
Jun 2018 to Till Date

Projects:
Title: Subject Matter Expert
Technology: Angular 6, Bootstrap
Worked on the project for developing a dashboard for a hospital where profile of various SME?s and users are maintained and they can interact with each other.
Title: Orion Health
Technology: Javascript, Rhapsody
Worked on the project for developing interfaces to communicate between multiple hospitals. Worked on this project from scratch and was a part of complete SDLC from requirement gathering to deployment.
Title: Document Creator
Technology: Angular 6, Bootstrap
Developed an application which provides a centralized point of documents and information sharing. Thus it avoids documentation redundancy and reduces the effort spent on a customer project per integration engineer.
