Work Experience

Cognizant as Programmer Analyst
Jan 2019 to Till Date

FRM Management and Indexing Services - Travelers
*Mostly worked on the backend where I created the respective Java objects for the constraints received from inputs and mapped the data to the database in an organized manner for better read/write operations.
*Designed and maintained a system for efficient storage (and retrieval) of specific file types from directories & subdirectories into the server.
*Developed a few .jar utility tools that automated some tasks and helped reduce lots of manual work.
*Technologies: Java, Spring Boot, Hibernate, HTML, CSS, JS, REST API

Freelancer as WordPress Web Developer
Oct 2017 to Nov 2018

* Developed various WordPress websites including dynamic, static, E-commerce, property, etc.
* Fiverr.com, Freelancer.com, blogs and Google Ads were used for marketing the services offered.
