Work Experience

Implevision Technologies as Software Developer -Java
Feb 2020 to Till Date

Working on "Avatar insurance" project. Avatar insurance is an insurance-providing agency in US that provides stability and security to Florida property owners by offering comprehensive insurance coverage across the state.
I am working on Avatar phone management system module. I am looking after front-end and back-end. For front-end, we are using ReactJS and for back-end, we are using PHP Laravel framework.
Attended daily standup calls with clients in the evening
Made use of OneNote for task management and updated the tickets as and when required with relevant information

Sankey Solutions as Associate Consultant
Jun 2017 to Jan 2020

Worked on Homzhub property management custodian. Homzhub is a service-provider that helps users to manage their properties across India and Singapore.
Built end-to-end application using Java play framework, along with Scala with HTML/CSS for front-end.
Worked as a Full Stack Developer and collaborated with cross-functional teams to understand business use case for efficient development.
Worked on Sankey Employee portal that helps to keep the track of employee data in Sankey.
Built end-to-end application using PHP Laravel framework for back-end and HTML/CSS for front-end.
Developed modules in Sankey Admin portal like Employee addition/deletion, Leave management, Holiday management, Employee listing.
Developed modules in Sankey Employee portal like displaying profile, applying for leave.

NuWebWave Technologies as Front-end Developer
Jul 2016 to Jun 2017

Worked as an SEO analyst. Improved the ranking of several websites through On-page and Off-page SEO.
Used the meta-keywords and google webmaster for better ranking of websites.
Tracked the status for websites using Alexa Ranking.
Developed the front-end for Bahubali metals and Padmavati steel using plain HTML/CSS.

Education

UG: **B.Tech/B.E. (Information Technology)** from **Mumbai University** in **2015**
