Summary

I intend to be a part of an organization where I can make best use of my technical skills for the growth of the company while consistently learning and developing my knowledge.

Work Experience

IQVIA as Software Engineer
May 2019 to Nov 2020

I am a part of Product and aplication Implementation and support team with the help of SQL queries to validate files for the clients according to the work instructions.
Used SQL Developer for fetching data from the database for checking errors and for testing the files before providing it to the clients.
Used MS Excel to maintain data for the clients and to compare data at the end of month.
Used ETL Tool such as Komodo ETL to load the files provided by the clients and to Schedule the Jobs accordingly in tool and to check the errors we get from the files loaded in the ETL tool.
Worked on configuration builds and troubleshooting issues using SQL.
Used Putty Tool to automate script execution and also worked on Shell scripts in putty.
Used Forticlient VPN to monitor Jobs and to troubleshoot them by specifically connect through Forti VPN.
Used Talend ETL tool for data integration. Also Monitoring Jobs and to run those Jobs and to troubleshoot the errors.
Used Informatica Power center to run Jobs and to monitor Jobs to get the specific files provided by the client.
Mentoring and Knowledge Transfer session to the new employees.
Quality checks for build and configurations in the team.

RELIANCE JIO as Assistant Manager
Mar 2018 to Mar 2019

ENTERPRISE ENGINEER AND BUSINESS ANALYST
Used MS EXCEL to maintain datasheet for day to day handling of products of

Jio.
Used Tableau data analysis and to maintain datasheet.
Used putty tool to trubleshoot network connection across a area.
Worked on L2 switchesand provide network connectivity.
Worked on SQL Developer to fetch the data for day to day progress.
