Last Active: 22-Jan-21   Last Modified: 22-Jan-21

Summary

A technocrat with 25 months of IT experience and 20 months Non-IT experience in Software Development and Software Engineering
Rich experience in managing complete Software Development Lifecycle (SDLC) including requirement analysis, development, coding, design, enhancements, customization, UAT, and other testing
Skilled in mapping clients\u2019 business requirements and translating these requirements into functional specifications, services, implementations and custom application solutions
Hands-on experience of working on AVA, Spring-4.3, Spring Boot 2,Hibernate 5.1, Angular 6, PrimeNG, Thymeleaf, Birt tool, ECMAScript, TypeScript, HTML5, Oracle SQL/PLSQL
Proficiency in managing end-to-end development of multiple projects simultaneously from requirement specs, planning, designing, testing, implementation, configuration till documentation for Business Intelligence Applications
Excellent communication & interpersonal skills with capabilities in resolving complex software bugs

Work Experience

3i Infotech as Software Engineer
Sep 2018 to Till Date

Mapping requirements & providing best solutions involving evaluation and definition of scope of project and finalization of designing requirements; leading projects from inception to implementation
Executing complete Software Development Lifecycle with focus on Impact Analysis, Detailed Design and Development; ensuring timely completion and delivery of project to the client; extending production support for applications
Designing, developing, testing, troubleshooting and debugging of the applications; providing post-implementation, application maintenance and enhancement support to the client with regards to the software application
Supervising all phases of the project lifecycle inclusive of scoping, development, integration, deployment, coding & testing, maintenance and production support
Detecting issues and risks in a timely manner; developing appropriate mitigation and contingency plans; implementing Root-Cause Analysis for resolving issues in the system
Formulating solutions for given technical specifications; installing application software and deploying customizations; contributing to code reviews

Projects Undertaken:

Kastle Treasury
Client: Access Bank, PNBHFL
Technology & Tools: Spring 4.3, Thymeleaf, Hibernate 5.1.3, JQuery,
      HTML5, Oracle SQL/PLSQL and Birt tool

Key Result Areas:
Worked on banking bank-end operations like transactions, EOD-BOD, client maintenances, keeping records of all transactions such as Outright Trades, Customer transaction, Interbank Deals, Scrip maintenances, Portfolio management, Report activities

Kastle IRM
Client: PNBHFL, MSCB, PayU Finance
Technology & Tools: Spring Boot-2,Hibernate 5.1.3, Angular 6, Oracle
      SQL/PLSQL, PrimeNG, TypeScript, ECMAScript and Birt Tool

Key Result Areas:
Worked actively for enhancements in existing system to meet clients requirement and removing bugs from current functionality
Performed front-end using Angular and Java to establish communication between database activity and User interface

Datalink Consultancy as Network Engineer
Feb 2016 to Feb 2018

Worked with Project team for shifting from Microwave to fiber.

Education

UG: **B.Tech/B.E. (Electronics/Telecommunication)** from **Vidyalankar Institute of Technology** in **2015**

PG: **MBA/PGDM (PG-DAC)** from **CDAC, Mumbai** in **2018**
