Work Experience

Searce as Software Engineer
Jul 2019 to Till Date

Associated with several projects as frontend developer / full stack developer using hands on technologies like React, Angular and Python.
- Worked in conjunction with high level clients like Tokigames, Azure Entertainment, and DBCorp during development cycle and product delivery. (I have also briefly described my role in each of the projects below)
- Continuously integrated development cycle environment and deployment of developed features. Well versed with task management tools like Mantis and Jira.
- Composed a python script to port Angular JS codebase to Angular as a part of technological upgrade. This enhanced the speed and accuracy to around 40%.

NYX Wolves as Web Designing / Development
Feb 2018 to Apr 2018

Designed and managed event portfolios.
- Small scale ecommerce websites.
