SANJEEV KUMAR ⭐ Featured

Hadoop Developer,Seeking assignment in Hadoop Development,Software & Application Development,Requirement Gathering,Project Analysis,Troubleshooting,Debugging,HDFS,Big Data,RDBMS,Core Java,JSP,Spred MVC,Servlet,Hibernate,MapReduce,Pig,Hive

Current Designation: **Hadoop Developer**

Current Company: **Rector IT Consulting**

Current Location: **Noida**

Pref. Location: **Bengaluru / Bangalore,Delhi / NCR,United Arab Emirates (UAE)**

Functional Area: **IT Software - Application Programming / Maintenance**

Role: **Software Developer**

Industry: **IT-Software/Software Services**

Marital Status: **Single/unmarried**

Key Skills: Hadoop Developer,Software Developer,Hadoop Development,Software & Application Development,Requirement Gathering,Project Analysis,Troubleshooting,Debugging,HDFS,Big Data,RDBMS,Core Java,JSP,Spred MVC,Servlet,Hibernate,MapReduce,Pig,Hive

Verified :   Phone Number | Email - id

Total Experience: **3 Year(s) 6 Month(s)**

Notice Period: **1 Month**

Highest Degree: **MCA [Computers]**

Last Active: **28-Aug-20**   Last Modified: **28-Aug-20**

Summary

Versatile, innovative and high energy technocrat with over 8 years of experience out of which:
*   1+ years in Hadoop Development
*   2+ years in Software/Application Development on Java platform
*   4+ years in Training & Mentoring
    Proficient in mapping client / business requirements, application design & development, integration, testing and deployment of complex information systems
    Comprehensive knowledge of JSP, Spring, Servlet, Hadoop Ecosystem, Hive and Hive Analytical Functions and so on
    Skilled in contributing actively throughout the development phase by tracking technical issues and solving problems especially for the issues spanning across multiple programs/projects
    Hands-on experience in working with ecosystems like Hive, Pig, Sqoop, Map Reduce, Flume, IDE Tool like Eclipse
    Participated in various phases of SDLC right from requirement analysis, effort estimation, coding & testing for maintaining the quality of proposed applications

Work Experience

Rector IT Consulting as Hadoop Developer
Nov 2015 to Till Date

Key Result Areas:
Installing, configuring and maintaining enterprise Hadoop environment
Loading data from different datasets and deciding on which file format is efficient for a task
Understanding the requirements of input to output transformations
Spending ample time in cleaning data as per business requirements using streaming API or user defined functions
Defining Hadoop job flows, managing Hadoop jobs using scheduler, reviewing and managing Hadoop log files
Building distributed, reliable and scalable data pipelines to ingest and process data in real-time
Fetching impression streams, transaction behaviours, clickstream data and other unstructured data
Designing and implementing column family schemas of hive and Hbase within HDFS
Assigning schemas and creating Hive Tables, managing and deploying HBase Clusters
Developing efficient pig and hive scripts with joins on datasets using various techniques
Assessing the quality of datasets for a Hadoop data lake

Highlights:
Steered efforts in applying different HDFS formats and structure like Parquet, Avro and so on to speed up analytics
Troubleshot and debugged any Hadoop ecosystem run time issues such as java exceptions, safe mode error in cluster, incompatible namespace ids, invalid input exception

Extreme Business Solution as Software Developer
May 2013 to Sep 2015

Key Result Areas:
Observed the entire project lifecycle - feasibility through scoping, requirements definition through specification, design, development, quality assurance, integration and implementation
Analysed the user needs and software requirements for determining feasibility of design within time and cost constraints; consulted with customers about software system design and maintenance
Conducted system study and coordinated with team members for product documentation, system design & integration, coded, application maintenance, and so on
Identified defects, questionable functions, errors and inconsistencies in software program functions, outputs, online screens, and content for the betterment of the development process
Interacted with team members for ensuring smooth progress of project work; assured adherence to quality norms throughout the implementation process
Provided post-implementation, application maintenance and enhancement support to the client with regards to the product / software application

Highlights:
Designed and implemented a web application using technologies such as JSP, HTML5, Spring, Hibernate
Worked with the Software Test Manager in overcoming logical and designing challenges during the execution of projects
Developed software solutions by studying information needs, conferring with users, studying systems flow, data usage, and work processes

Obedient IT Consultant as Trainer & Mentor
Apr 2011 to Apr 2013

Conducted trained sessions on created basic projects on VB, PHP and Java environment
Support trainees in solved problems like understanding project, solving logical errors, learning supportive technology.
Managed the 10-15 members a group of trainees

VaishnooMaa Computers as Professional Trainer
Aug 2008 to Mar 2011

Highlights:
Conducted trained sessions on created basic projects on VB and Java environment
Support trainees in solved problems like understanding project, solving logical errors, learning supportive technology.
Managed the 10-15 members a group of trainees

Education

UG: **BCA (Computers)** from **Punjabi University, Patiala** in **2005**

PG: **MCA (Computers)** from **Punjabi University, Patiala** in **2008**

IT Skills

Skill Name	Version	Last Used	Experience
Core Java,JSP, Spred MVC			
MS SQL Server, oracle10g, My SQL			
Eclipse, Visual Studio-2008, Hortonworks			
WordPress, Open Cart			
CSS, JQuery, Javascript, Ajax			
PHOTOSHOP			

| Microsoft Office |
| Word, Excel, Powerpoint, Access |
