Work Experience

AWC Software Pvt. Ltd as Senior Software Engineer
Jun 2015 to Till Date

* Innovative BPM Consultant dedicated to providing systematic workflow optimization.
* Responsible for Business process design, modeling, development, implementation and deployment.
* Impressive ability to use BPM tools to build customer-defined applications.
* Substantial understanding of Oracle Integration Cloud.

EB Portal
Indus Tower
* The purpose is to automate the EB portal process with multiple on premise solution so that transactional data can be exchanged on real time.
* Involved in designs and development of integrations using Oracle ICS and creating workflows in PCS.
* Build of multiple integrations using App Driven Orchestration and Basic Routing in OIC to perform CRUD operations and executing the stored procedures.
* Used the different Functions and Operations like String, Date, Mathematical, Integration Cloud (lookup value) etc. inside the mapper component to perform different logics and validations.
* Build of multiple Scheduled Integrations to trigger the email notifications on certain frequency to the concerned users.
* Used the XSLT in the ICS integration to define the Flow Control and Output.

*   Used the FTP adapter to retrieve the file for processing in OIC and performed multiple operations like List, Read, Write, Move and Delete.
*   Developed an integration to execute the Stage file actions on the file downloaded by FTP adapter in a staged location known to OIC.
*   Kept track of all the integrations using the Monitoring feature of OIC.
*   Technologies used - Oracle Integration Cloud

DG Wonder
Wonder Cement
*   The purpose is to implement process driven approach w.r.t Accounts Payables- PO and Non-PO based invoices including the GRN, Quality Parking, Posting and generating the payment advice of invoices.
*   Introduction of image-based processing.
*   Streamline the process and 360-degree view of transactions - data and document.
*   Fixing responsibility and accountability against the users ensuring visibility.
*   Matching of data before processing the Invoice.
*   Storage of Invoice documents in to DMS module.
*   Integration of Newgen with Microsoft Dynamics ERP, Mail Server & LDAP.
*   Integration of the process and ERP masters through web service.
*   Technologies used - Microsoft Dynamics ERP, Java, JavaScript, Newgen Product (OmniDocs, iBPS, OmniScan, iPS), Microsoft SQL Server, Web services

Supplier Creation and AP Automation
E-com Express
*   The purpose is to automate their Supplier creation, Accounts Payable PO and NON-PO Based process including the GRN, Parking and Posting of invoices.
*   Scanning and Posting of AP Invoice in Newgen through OmniScan.
*   Integration of Newgen with ORACLE ERP, Mail Server & LDAP.
*   Integration the oracle master tables through web service.
*   Technologies used - ORACLE ERP, Java, JavaScript, Newgen Product (OmniDocs, iBPS, OmniScan, iPS), Microsoft SQL Server
DMS Implementation
CERA
*   The purpose is to store the required documents uploaded through SAP in respective user's folders.
*   The solution made it easier for the user to view images of the documents, and to search and retrieve them using indexing information associated with each file.
*   System helps in retrieving the uploaded documents in SAP via SAP Image enablement.
*   Integration of Newgen with SAP ERP, Mail Server & LDAP.
*   Technologies used - SAP, Java, Newgen Product (OmniDocs), Microsoft SQL Server

AP Automation
ORIENT ELECTRIC
*   The purpose is to automate their Accounts Payable process including the GRN, Parking and Posting of invoices.
*   Scanning and Posting of AP Invoice in Newgen through OmniScan.
*   Integration of Newgen with SAP ERP, Mail Server & LDAP.
*   Integrated processes with external portal 'HRIS' through web service.
*   System supports the SAP image enablement.
*   Technologies used - SAP, Java, JavaScript, Newgen Product (OmniDocs, iBPS, OmniScan, iPS), Microsoft SQL Server
