Work Experience

Clover Infotech as Data Analyst and Software Engineer
Aug 2019 to Till Date

Project 1:
Client: Intermech, Singapore.
Intermech is a Singapore Based Automation device manufacturing company, Major of
devices for the Panasonic, ZF, Servo, etc.
We have designed many applications for Audit purpose by using the VBA Macros
and data scraping from Intermech URL?s for report generation purpose. We have done
Small Scale Automation for report automation to avoid manual workload.
We do support Intermech analytics team in various prospects like Data analysis, Data
manipulation, Data cleansing.

Technologies used: VBA, Excel
Provided with automation of insurance department?s manual processes by writing
VBA code and using macros and formulas to speed processes and maximize accuracy.
Generate ad-hoc reports as directed by Management level.

Extensively use Excel functions in development, focusing on read/write integration to databases.
Continuous client interaction to reduce the gaps in the process and optimize the reports.
Using VLOOKUP, HLOOKUP, and Match &Index, SUMIFS, conditional formatting and other Excel functions.
Using Pivot Tables to summarize the raw data.
Providing technical support for Domain Side Employees.
Understand and execute wide range of client requirements in terms of data management, data cleansing.
Program, format, extract and manipulate data to support analysis
Strong ability to work independently or as a member of a team.

iTecharc Solutions Pvt Ltd as Data Analyst & VBA
Jun 2017 to Jul 2019

Project 2:
Client: ICICI Bank, Mumbai.
? ICICI Bank is one of the largest banks in India. It contains various products in different sectors. ICICI initiated a banking facility to customers in terms of collecting cash on daily basis for his customers and depositing the collected vault amount in banks. The main moto is avoiding the customer risk and providing flexibility to their customers all over India.
We have a designed a macro to collate the various reports received from the vendors in different formats. We prepare a dashboard according to the format given by the business people and we send emails those dashboards to respectively senior management people on daily basis.

Technologies used: VBA, Excel
