To develop and refine my skills as a developer with every new opportunity big and small. To grow as an individual both professionally and non-professionally, who can maintain and then improve the standard of tasks undertaken with a level of sophistication and also inspire others at the same time.

Work Experience

SOFT.COM INDIA Pvt. Ltd as SOFTWARE ENGINEER
Jul 2019 to Till Date

June, 2019 -November, 2019
IST (Image Streaming Tool)
Technologies: Java, Javascript, Spring MVC, Spring Boot, JPA, SQL Server.
Team Size: 2 members.
Role: Java Developer.
Developed the whole frontend logic using javascript and implemented backend using Spring MVC and Spring Boot to create a microservices architecture. Created the database for the project using MS SQL Server. Goal of the project was to load a medical image or selection by medical professionals in a low pixel quality depending upon the available bandwidth.

March, 2020 - Present
UI Designer
Technologies: Javascript, jQuery, Java, Spring MVC, JDBC, SQL Server.
Team Size: 2 member.
Role: Java Developer.
Defining new components and its properties by updating javascript code and altering database tables. The project consisted of UI with different components that can be dragged and dropped to create a form template. This form template can then be saved to database in JSON string format and used to another application to generate an actual HTML form.
