Work Experience

◉ **Capgemini Pvt. Ltd** as Associate Consultant -RPA
Jul 2017 to Till Date

PROJECT DETAILS:
#Project: 1 ABAP SHORT DUMPS
Client : Coca Cola
Skills : UI-Path, Service Now, SAP
Role : Developer
Sector : IT
Description: In UIPATH we will monitor the mails sent by Solman. If a mail arrives, the main automation will be triggered. This use-case checks the SAP short Dumps Data by executing T-code ST22. Based on the filter conditions given by the client the incident will be raised for the dumps. Finally a mail will be sent to the respective team along with the incident number attached in the mail. We have also maintained the incident records in order to reduce the duplicate incidents.

Responsibilities:
Working on estimation planning and other lifecycle methodologies.
Designed and Developed RPA Solutions to accelerate business process.
Worked on Process Definition Document (PDD) step by step keystroke level.
Worked on Solution diagrams and Solution description and object model diagrams.
Worked on Solution Design Document (SDD).
End to End development is done in Robotic Process Automation (RPA) using UI-Path.

#Project: 2 Kiosk Logoff Group
Client : Coca Cola
Skills : UI-Path, AWS, Service now and SAP
Role : Developer
Sector : IT

Sector : IT
Description: This project manages the functions of the tool (SNOW) like creating an incident, updating an incident, deleting an incident and assigning the incident to a particular person in Operations team. The main process deals in logging off the use from SAP, locking and unlocking the use of the user has more entries in SAP compared to the threshold. This use case has more saving in terms of manual work as it auto heals the issue.

Responsibilities:
Working on estimation planning and other lifecycle methodologies.
Designed and Developed RPA Solutions to accelerate business process.
Worked on Process Definition Document (PDD) step by step keystroke level.
Worked on Solution diagrams and Solution description and object model diagrams.
Worked on Solution Design Document (SDD).
End to End development is done in Robotic Process Automation (RPA) using UI-Path.

#Project: 3 Target Queue Monitoring
Client : Coca Cola
Skills : Automic, Service now
Role : Developer
Sector : IT
Description: This project manages the functions of the tool (SNOW) like creating an incident, updating an incident, deleting an incident and assigning the incident to a particular person in Operations team. The main outcome of the project is to check particular queues in the SAP System and check if the queues are struck. Upon finding struck queues we need to create an incident in client service now and it should be assigned to respective team.

Responsibilities:
Working on estimation planning and other lifecycle methodologies.
Designed and Developed RPA Solutions to accelerate business process.
Worked on Process Definition Document (PDD) step by step keystroke level.
Worked on Solution diagrams and Solution description and object model diagrams.
Worked on Solution Design Document (SDD).
End to End development is done in Information Technology Process Automation (ITPA) using Automic.

#Project: 4 IDOC Report Generation
Client : Coca Cola
Skills : UI-Path, AWS and SAP
Role : Developer
Sector : IT
Description: The main process deals in logging into the SAP System and executing SAP Tables by passing the filter conditions in order to fetch IDOC Details. Fetch the count of IDOCS present for the Status numbers 03, 05 and 17. Finally send a mail with the count of IDOC's in the form of HTML mail body.

Responsibilities:
Working on estimation planning and other lifecycle methodologies.
Designed and Developed RPA Solutions to accelerate business process.
Worked on Solution diagrams and Solution description and object model diagrams.
Worked on Solution Design Document (SDD).
End to End development is done in Robotic Process Automation (RPA) using UI-Path.
