   Result oriented, highly motivated, dedicated and cohesive Team Player with strong analytical and problem-solving skills.

Work Experience

⊙ **Vodafone Idea Ltd.** as Senior Engineer- IT
Mar 2019 to Till Date

Project #2   Server Health Monitoring
Technology   HTML5, CSS3, JavaScript, NPM, React, Redux
Company   Vodafone Idea Ltd.
Project Description   A website to maintain view and report health status of several Telecom Servers and with limited remote actions available to end users. Entire system is divided into modules by which we can monitor and maintain the details. The modules that are involved are Fault Management, Performance Management & Configuration Management.
Responsibilities   ?   Developing user interface by using the React JS. .
?   Writing application level code to interact with APIs, RESTful Web Services
?   Creating Custom Reusable React Components Library.
?   Creating responsive design for different devices
?   Work closely with the Team during implementation to ensure close monitoring and adherence to the design.
?   Designed and developed various Web forms using HTML, CSS, Bootstrap and JavaScript, ReactJS
?   Created components using ReactJs and also created documentation for components

⊙ **Ericsson India Global Services Pvt. Ltd** as Assistant Engineer
Nov 2016 to Mar 2019

Project #1.   Telecom Client : ELEX Portal for Document Library
Technology   Bootstrap, CSS, HTML, React
Company   Ericsson India Global Services Pvt. Ltd
Project Description   Web Library to browse and update Product related documents.

Responsibilities   *   Designing UI, Coding for Business Logic.
*   Developing single - page applications (SPAs).
*   Component for UX-Library consisted of Button, Checkbox, Input, Icons, Toggle Button, Dropdown, Multi-Level Dropdown and many more.
*   Used ReactJs to create views to hook up models to DOM and synchronize data with server.
*   Designed simple views for each state in the applications so that React will efficiently update and render just the right components when the data changes.
