Work Experience

Samsung R&D as Senior Software Engineer
Jun 2018 to Till Date

Worked on building the Samsung SSP(Server Side Platform) for serving TV Ads from scratch. Work included researching, designing,
developing, testing and successfully launching the product to market.
Projects Lead:
Lead and implemented a project for building Programmatic Direct Ad Platform (Ad Portal + Programmatic Direct Server) and presented
a POC for it to be used as a Demand partner for Samsung SSP to help increase in the potential revenue.
Worked on Samsung mobile SSP to evolve and expand in 14 countries with more than 50 demand side partners.
Automated the deployment cycle for Samsung SSP using pipelines, opsworks and chef.
Automated the complete QA testing cycles by developing mock servers and associating them with automated test scripts to ensure
hassle free development and testing for each version update.
Individual Projects:
Worked on automating the manual ad content review by auto ad classi
