Projects

Project Title: Auto master
Client: Scania, Finland base: Veho, Laakkonen and Metro-auto
Nature of Employment: Full Time   Duration: Jan 2014 - Dec 2014
Role: Test Engineer   Onsite / Offsite: Offsite
Skill Used: Technology   : Unified Team Developer
Testing Approach : Automation.

Tools Used : UFT, ALM
Project Details: Project Description:

The key to any successful dealership is simply this: Earn happy customers who return again and again, and then earn the full value you deserve from every transaction.
Auto Master from ADP helps you build that strong relationship with customers at each step of their journey: from their earliest research right through the sale, then on to future visits for MOT, service and parts, and their next new car. Auto Master puts you in command and brings you maximum value at every step.

Project Title: Unum.
Client: UNUM
Nature of Employment: Full Time

Duration: Apr 2012 - Dec 2013
Onsite / Offsite: Offsite
