Last Active: 21-Jan-21   Last Modified: 18-Jan-21

Summary

* Having 3+ Years of experience in IT industry as a Software Developer in Tableau tool.
* Experience on Tableau Desktop, Tableau Server, Tableau Online.
* Hands on experience creating Tableau reports, dashboards and development as per user requirements.
* Experience in data importing using various connections like MS Excel, SQL Server and Oracle.
* Proficient in database design and writing complex T-SQL queries
* Performed ad-hoc reporting analysis as well as manipulate complex data on MS SQLserver.
* Creating the multiple dimensions and performed Individual Axis, Blended Axis, and Dual Axis with multiple measures.
* Worked on filters like Quick filters, Context filters, Parameters, ands Cascading filters using extracts in Tableau and
improved the report performance using data source filtering.
* Performed analysis on Sets, Bins, and Groups for TOP & BOTTOM set analysis.

Work Experience

INFOCARE SOFTTECH PVT LTD. as Tableau Developer
Feb 2017 to Till Date

Project: The project involved designing and developing Tableau dashboards for healthcare and financial data analytical
reports from SQL database tables and MS Excel source documents and other sources using ODBC.
. As a Tableau I was responsible for designing and developing Tableau dashboards for two engagements and gathering
business requirements to develop visualization

Roles & Responsibilities:
* Created effective dashboards in Tableau Desktop and schedule/automate reports using Tableau servers.
* Designing the reports as per client requirement and created the reports using flat files and migrated to SQL server.
* Working closely with Customer Service to understand their need for Tableau Dashboard.
* Designed the bar chart, line chart, and scatter plot, tree maps geographic maps, highlight tables and created
visualizations.
* Created Sets for the Top/Bottom analysis and Groups for the visual grouping.
* Created KPI's and written the complex calculations date, logical, number, aggregate, table calculations.
* Developed Interactive Dashboards using dashboard supporting components, actions, parameters and filters.
* Extracted the data from non-database sources (Xls, Csv and Text file) and generated reports by using Tableau
Desktop.
* Used various join types (left, inner, right, outer joins) based on business requirements.

* Used techniques like data blending which brings data from multiple data sources into a single view in Tableau.
* Published Tableau dashboard on Tableau Server and embedded them into portal.
* Designed customized Tableau charts suitable for my requirements and audience; charts like Sankey Diagram, Grouped Bar Charts, Donut Charts, Bar-in-Bar Charts, and logical calculations to create groups.
* Designing reports with Drill Down, Drill Through and Drop down menu option, Parameterized and Linked reports using Tableau.
* Designed Index, master-detail, sheet selector, action, hiding, toggle dashboards.
* Effectively used combine Fields, calculated Fields, aggregated Fields and Spotlighting to compare and analyze the data in different perspectives.
* Used Measure name and Measure Value fields to create visualizations with multiple measures and dimensions
* Wrote standard SQL Queries to perform data validation and created excel summary reports (Pivot tables and Charts)
* Built compelling dashboard using effective KPIs for Top Executives to help monitor and improve performance
* Created various Reports using SQL Server Reporting Services based on the requirements specified by the business users.
* Used filters, quick filters, context filters, cascading filters and parameters for tableau reports.
* Creation and modification of some of the existing reports and dashboards.
* Performed refreshes at server as per data changes on requirement basis.
* Involved in Tableau Server to publish the workbooks.
* Creating New Schedule's and checking the task's daily on the server.
* Performed Unit testing by using Functional testing, Performance testing and data validations.

Education

UG: **B.Sc (Computers)** from **Jawaharlal Nehru Technological University (JNTU)** in **2015**

IT Skills

Skill Name	Version	Last Used	Experience
Tableau 10.x, 2018.x, 2019.x, 2020.1			
Windows XP, Windows 7, Windows 10s			
Oracle 11g, SQL Server 2008 R2			
SQL, T-SQL			
Ms Word, Excel, Outlook			

Affirmative Action

Category: **General**

Physically Challenged: **No**

Work Authorization

Job Type: **Permanent**

Employment Status: **Full time**
