Work Experience

◉ **North Shore Technologies** as Software Engineer
Aug 2018 to Till Date

ANGULARJS DEVELOPER
Project 1:
Project Name: PUBLISHERS CLEARING HOUSE

Client: PCH

Duration: April' 2019-October' 2019

Project Description:
It is a direct marketing company that markets merchandise and magazine subscriptions with prize-based games. While best known for the sweepstakes and Prize Patrol it uses to promote its magazine subscriptions, the majority of the company's revenue now comes from the merchandise. The company has been selling books, media and other consumer items since the 1980s.

Project 2:
Project Name: Wolters Kluwer

Client: Wolters Kluwer

Frontend Technology: Angular

Duration: Aug' 2020-Present

Project Description:
Wolters Kluwer N.V. is an American Dutch information services company. It is a global provider of professional information, software solutions, and services for health and clinicians, accountants, lawyers, and tax, finance, audit, risk, compliance, and regulatory sectors.

My Role:

Understanding client requirements.
Updated the site with added features using angular.
Testing the site for proper functioning using protractor and cucumber.
Detected for any technical errors that might have arisen due to any mistake in the code.
