Projects

Project Title: Zensa
Client: Sonata Software Ltd.
Nature of Employment: Full Time   Duration: Jan 2020 - Till Date
                                                   Onsite / Offsite: Offsite
Skill Used: Microsoft Dynamics CRM (Dynamics 365), MS Flow and Azure
Project Details: Zensa LLC is a mobile transformation company enabling business productivity for mid-size enterprises. They develop line of business apps to support key business processes in order to enhance productivity, business to employee (B2E) engagement, revenue & other parameters across mobile platforms.
This system is a complementary solution to the Mobile App Generation Platform that will help small businesses with additional ways to easily manage and run their operations. They can significantly streamline their front-end operations to minimize clutter and increase efficacy of running an effective business.

Project Title: HalcyonCRM Integration
Client: Halcyon, Australia
Nature of Employment: Full Time   Duration: Jul 2019 - Nov 2019
                                                   Onsite / Offsite: Offsite
Skill Used: Dynamics 365, Dynamics 365 for F&O and MS Flow
Project Details: The primary objective of the project was to be able to capture account information and perform various account management activities for homeowner across various communities within the Halcyon Group

Project Title: MDMCPM Integration

Client: Microsoft
Nature of Employment: Full Time   Duration: Dec 2018 - Jun 2019
                                                                  Onsite / Offsite: Offsite
Skill Used: Dynamics 365, Azure Cloud Service and ASP.NetWebAPI
Project Details: Marketing module in Dynamics 365 was used to send emails to users of client. Users subscribed for
newsletter. Subscription status of all the newsletters were saved in central repository named Customer Preferences Master
(CPM). This project included the creation of Proxy Service which has checked the subscription status of user from CPM
Database before sending emails and saved unsubscribe Url in MSCRM.
